ABOUT ME

With a background in education and a strong enthusiasm for continuous learning, I have transitioned into the field of frontend development. My experience as a language teacher has equipped me with excellent communication skills, patience, and adaptability—qualities I now apply to writing clean, accessible code. I am currently enhancing my skills in React and JavaScript by working on real-world projects, and I enjoy creating intuitive user interfaces. I am seeking an internship opportunity where I can grow as a developer, contribute to meaningful work, and bring creativity, discipline, and a learner's mindset to a collaborative team.
